Assignment

Tasks

1. Write a function to fetch prizes from the url
2. Showcase the prize winners in a list. You can decide the layout and style.
You have to display each prize and who has won that prize
3. You should add dropdown to filter prizes by category and year.
4. Year should be between 1900 - 2018, you can find out the category yourself by iterating over the data.
5. There are 4 people who have won the nobel prize more than 1 time. You have to make a section in the app to display their information

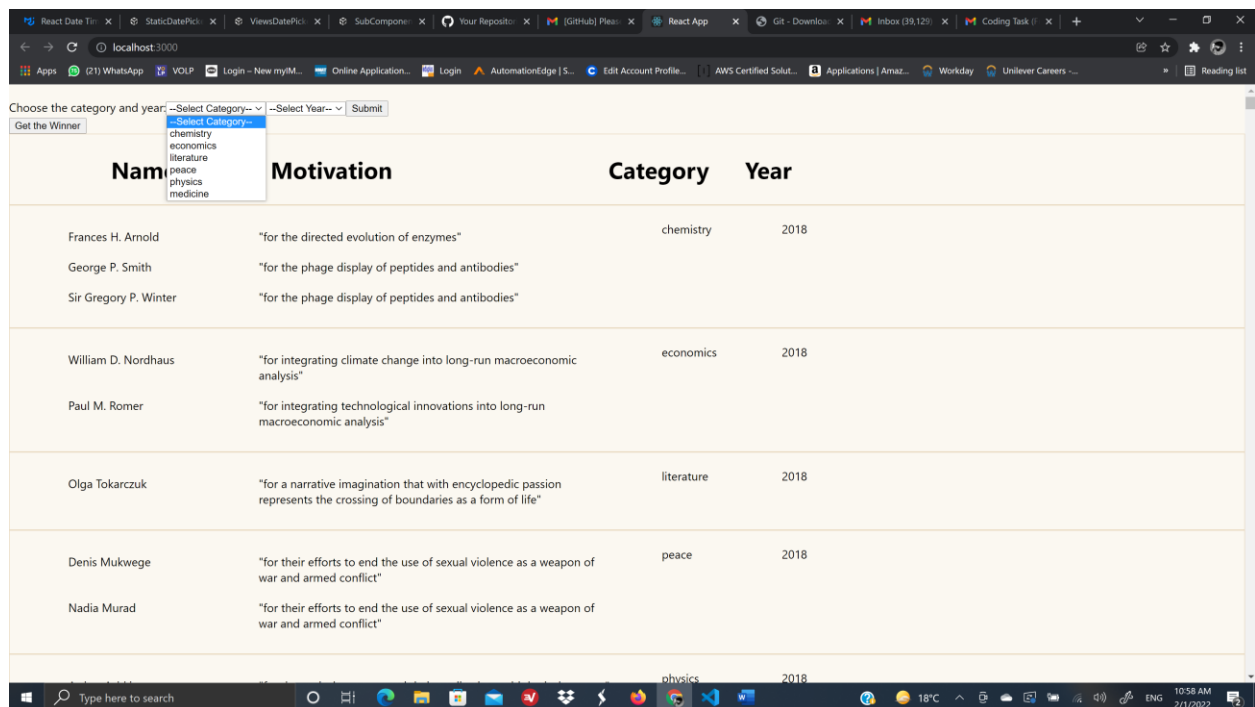

Task 1 & Task 2

Fetch data from the given url link using Axios and showcase the winners in list

Task 3

Added dropdown to filter prizes by category and year

Choose the category and year; --Select Category-- --Select Year-- Submit

Get the Winner

Names	Motivation	Category	Year
Frances H. Arnold	"for the directed evolution of enzymes"	chemistry	2018
George P. Smith	"for the phage display of peptides and antibodies"		
Sir Gregory P. Winter	"for the phage display of peptides and antibodies"		
William D. Nordhaus	"for integrating climate change into long-run macroeconomic analysis"	economics	2018
Paul M. Romer	"for integrating technological innovations into long-run macroeconomic analysis"		
Olga Tokarczuk	"for a narrative imagination that with encyclopedic passion represents the crossing of boundaries as a form of life"	literature	2018
Denis Mukwege	"for their efforts to end the use of sexual violence as a weapon of war and armed conflict"	peace	2018
Nadia Murad	"for their efforts to end the use of sexual violence as a weapon of war and armed conflict"		
		physics	2018

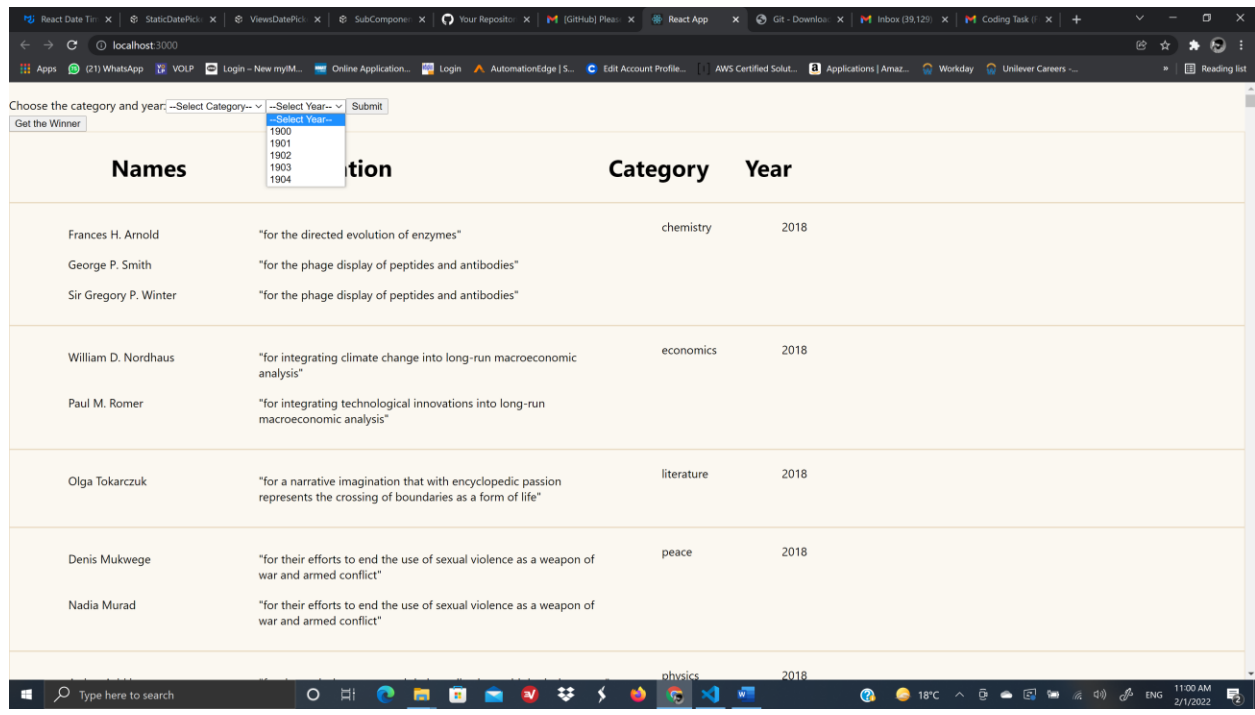

Choose the category and year; peace 1903 Submit

Get the Winner

Names	Motivation	Category	Year
Randal Cremer	"for his longstanding and devoted effort in favour of the ideas of peace and arbitration"	peace	1903

Task 4. Year should be between 1900 – 2018

I took year between 1900-1904 as of now

Task 5

You have to make a section in the app to display their information

I made a button (get the winners) for that, I haven't added any function for that so it wont return any value
